

Date	Presenter	Department	Title of the presentation
1/24/2018	Joshua Peschel	Agricultural and Biosystems Engineering	"Rise of the Robots"
1/31/2018	Nicole Hashemi	Mecanical Engineering	"Biological Studies: On-Chip Fabrication and Characterization"
2/7/2018	Mark Gleason	Plant Pathology and Microbiology	"Stealth fungi: sooty blotch and flyspeck disease of apples"
2/14/2018	Joel Coats	Entomology	"Plant based insecticides or repellents"
2/21/2018	Kimberly Greder	Human Development & Family Studies	Community-based research with Latino families
2/28/2018	Verena Paepcke-Hjeltness	Industrial Design	Sketchnoting, A Visual Approach to Foster Creative Confidence
3/7/2018	Sara Hamideh	Community & Regional Planning	building disaster resilience by improving recovery
3/21/2018	Jeff Essner	Genetics,Development & Cell Biology	Developmental Genetics: Gene editing with CRISPR/Cas9
3/28/2018	Jim Adelman	Natural Resource Ecology and Management	"There are alternatives to fighting: how wild birds tolerate pathogen infection"
4/4/2018	Jan Lauren Boyles	Greenlee School Journalism/Communication	"Digital to Data: The Landscape of Modern News Production"
4/11/2018	Suraj Kothari	Electrical and Computer Engineering	Applying Mathematics to Solve Cybersecurity Problems
4/18/2018	Annette O'Connor	Vet Diagnostic & Production Animal Medicine	TBA
